Committed to Dental Excellence

Commitment to Action:

The parties recognize that the people of the country, suffering from Oral Precancerous Lesion conditions and Oral Cancer are yet to benefit from early diagnosis, awareness and quality oral cancer treatment. The parties have together agreed to develop an atlas of oral precancerous lesions conditions and established cancer cases.

Party A will provide Party B with the software to enter all the information regarding pre-malignant conditions, conditions and oral cancer cases and maintain the database.

1. Party B will systemically collect the said data in order to understand trends in oral cancer occurrence over the country, and enter it in the National Oral Cancer Registry (NOCR) database using the software that Party A has equipped them with.
2. Enter correct, authentic & complete information of all the pre-malignant lesions, conditions & oral cancer cases, registered with the institution i.e. party B; which includes all new and on-going treatment, treated cases.
3. Party B will have access to all the data entered by them.
4. Only Party A and Party B will have access to the data and the patients' confidentiality will be maintained.
5. All the data collected in this database will be compiled in a report at the end of the year and party B will get credit for the data entered by them, if and where Party A publishes this data.
6. At the end of each year, the institution that provides and maintains maximum authentic data in that year will be recognised at the Indian Dental Conference of the following year, and be felicitated for the same.
